VIDEO GAME OPERATOR:

Don't Get Involved In A Federal Crime. Don't Buy Or Operate Copy Or Unauthorized Boards In Your Games.

Warning

Every operator who buys or operates a counterfeit or unauthorized board (imported or domestic) is contributing to the end of our industry and committing a FEDERAL CRIME.

New criminal laws have recently been enacted that provide for maximum penalties of \$250,000 or five years in prison or both, per offense. EACH GAME IS A SEPARATE OFFENSE.

WARNING

Federal law provides severe civil and criminal penalties for the unauthorized reproduction, distribution, or exhibition of copyrighted audiovisual works and video games.

The Federal Bureau of Investigation investigates allegations of criminal copyright infringement.

If you have any information about any unauthorized games in the United States, contact your local FBI or,

American Amusement Machine Association

205 The Strand
Suite 3
Alexandria, Virginia 22314
(703) 548-8044

All information will be treated in confidence.

IMPORTANT F.C.C. WARNING

THIS KIT IS INTENDED FOR USE ONLY ON COIN OPERATED VIDEO GAMES MANUFACTURED AFTER OCT. 1, 1983, AND ARE VERIFIED TO COMPLY WITH THE REQUIREMENTS IN PART 15 OF THE FCC RULES FOR CLASS A COMPUTING DEVICES. IMPROPER CONNECTION OF THE KIT, OR CONNECTION TO ANY OTHER OPERATED VIDEO GAME NOT SO MANUFACTURED, OR VERIFIED FOR COMPLIANCE, MAY CAUSE UNACCEPTABLE INTERFERENCE TO RADIO AND T.V. RECEPTION; THUS REQUIRING THE OPERATOR TO MAKE THE NECESSARY CHANGES TO CORRECT THE INTERFERENCE.

MEMETRON, INC. ASSUMES NO RESPONSIBILITY FOR KITS IMPROPERLY CONNECTED TO GAMES FOR WHICH USE IS NOT INTENDED.

W A R N I N G

MAKE SURE YOUR POWER SUPPLY PROVIDES THESE DC VOLTAGES:
+5 D.C. AT 7A, +12 D.C. AT 1A & -5 D.C. VOLTS.

Pac-man, Ms Pac-man, Galaxian and other select games DO NOT provide a D.C. power supply. MEMETRON will not assume responsibility for p.c. boards returned with damage caused by the introduction of improper voltages.

Pac-man, Ms Pac-man, and Galaxian are trademarks of Bally Midway.

N O T I C E

Parts salvaged from your old game are required to complete your kit. These salvaged parts must operate perfectly for the converted game to perform properly and safely.

MAKE SURE YOUR POWER SUPPLY AND MONITOR ARE WORKING PROPERLY BEFORE ATTEMPTING CONVERSION!

C A B I N E T

Reconditioning the cabinet is one of the most important things that you must do. Remove all old graphics and artwork from the cabinet. Clean the cabinet, and paint if necessary. Remember... A new game promotes player interest. This conversion is a new game....MAKE SURE IT LOOKS LIKE ONE.

C O N T R O L P A N E L

- 1) Remove the old buttons, joystick and control panel overlay (note... do not throw out parts, certain items are required to complete your new control panel.)
- 2) Refer to suggested control panel layout. (below.)
- 3) Drill any new holes that are necessary.
- 4) Plug any holes that will not be used, a common auto body bondo is probably the quickest filler available.
- 5) Carefully apply the new control panel overlay. Avoid getting air bubbles under the vinyl.
- 6) Once the overlay is in place, use an exacto knife to cut out the button and joystick holes.
- 7) Place the new buttons, joystick and instruction decals on the control panel.

SUGGESTED CONTROL PANEL FOR SOLAR WARRIOR

CRT AND MARQUEE PLEXI
(wear protective eyewear while cutting plexis)

- 1) The marquee and crt plexi must be cut to fit your game.
Do not remove paper mask until this is done.
- 2) Remove old marquee and crt plexi from game.
- 3) Use these to measure and mark the new plexi for cutting.
- 4) The plexis can be cut the same way you cut tile or window glass.
We suggest using a scribing knife . Using a straight edge to
guide the knife, draw the scriber several times along the edge.
Make sure your cuts go from end to end cleanly.
- 5) Lay the plexi on a table with the scribe mark hanging over the
edge. While clamping the plexi to the table apply sharp downward
pressure to the other side. Sandpaper should remove any rough
edges.

G R O U N D I N G

TO ASSURE PROPER GAME OPERATION AND TO PREVENT SHOCK HAZARD,
MAKE SURE GAME IS PROPERLY GROUNDED. DO NOT USE A "CHEATER"
PLUG TO DEFEAT THE GROUNDING PIN ON THE POWER CORD!

N O T I C E

For safety and reliability, Memetron, Inc does not recommend or
authorize any substitute parts or modifications of Memetron
equipment.

Use of non Memetron parts and modifications of circuitry may
adversely affect game performance.

Substitute parts or equipment modification may void FCC type
acceptance.

Since this game is protected by federal copyright, trademark and
patent laws, unauthorized game conversions may be illegal under
federal law.

This "conversion" principal also applies to unauthorized facsimiles
of Memetron, Inc., equipment logos, designs, publications, assemblies
and games (or features not deemed to be in the public domain),
whether manufactured with Memetron components or not.

COIN COUNTER

To properly connect a coin counter on Solar Warrior you will need the following items.

- 1) 12 volt coin counter (1)
- 2) 1N 4004 diode (1)

(see diagram below)

- 1) Connect the coin counter wire from the P.C. board to the anode side of the 1N 4004 diode, then connect to one lead of the coin counter.
- 2) Connect the other lead of the coin meter to the cathode side of the diode, then connect to 12 volt D.C. on your power supply.
- 3) MAKE SURE THE DIODE IS IN PLACE AND HOOKED UP CORRECTLY OR DAMAGE TO THE PC BOARD MAY OCCUR.

IF YOU HAVE ANY QUESTIONS CONTACT YOUR MEMETRON SERVICE REPRESENTATIVE
